

Blake Hobbs

Fredericksburg, VA | blakeahobbs@gmail.com | (540)-207-7904 | <https://www.linkedin.com/in/blakehobbs1/>

PROFESSIONAL SUMMARY

Data Analyst with a background in Information Systems and hands-on experience analyzing financial data, building data warehouses, and creating Tableau dashboards. Proficient in SQL, Python, and cloud tools including Snowflake and AWS, with a strong ability to translate complex datasets into clear, actionable insights for business stakeholders.

EDUCATION

Utah State University, Jon M. Huntsman School of Business

Bachelor of Science, Information Systems, Data Engineering Emphasis. Member: Baddies of Tech, Analytics Solutions Center Innovation Labs. GPA: 3.57.

Logan, UT

May 2026

EXPERIENCE

Data Analyst and Administrative Support

Aug 2025 – May 2026

Utah State University Production Services

Logan, UT

- Analyzed post-Covid financial data to support budgeting decisions across all aspects of the Production Services department of the Caine School of the Arts
- Developed financial reports to track spending trends and inform fund allocation for groups overseen by the Production Services department
- Built a printing cost calculator using Excel formulas to automate cost estimates for paper, toner, and maintenance, improving workflow efficiency for printing services

Computer Lab Consultant

Jul 2024 – Aug 2025

Utah State University Information Technology

Logan, UT

- Supported 15 students per hour with hardware and software troubleshooting, communicating complex technical concepts clearly and effectively
- Delivered training on 3D printing tools (Bambu Studio, Prusa Slicer) and virtual reality applications
- Developed training materials to streamline tech support processes and improve team consistency

PROJECTS

Netflix Pricing Analysis <https://tinyurl.com/FinalProjectTableau>

- Collected and analyzed a large dataset examining streaming services, pricing, and user preferences to identify patterns in user behavior
- Built an interactive Tableau dashboard and presented data-driven pricing recommendations to fictionally persuade Netflix executives to implement discounted student pricing
- Integrated multiple datasets and visualizations to communicate financial impact and user adoption potential

Eco Essentials Analytics Warehouse

<https://github.com/blake756/data-5360-dbt/tree/main/models/ecoessentials>

- Collaborated with a partner to design and build a dimensional data warehouse in Snowflake using dbt, transforming raw e-commerce and marketing datasets into analytics-ready fact and dimension tables
- Implemented surrogate keys, relationship testing, and data quality validation using dbt to improve data integrity and reporting reliability
- Integrated warehouse models into Tableau to support analysis of customer behavior, campaign performance, email engagement, and sales trends
- Created reusable SQL transformations and data models to support scalable business intelligence reporting

ACTIVITIES & LEADERSHIP

Aggiepella Club

Jan 2023 – May 2026

President

- Led rehearsals, arranged music, coordinated rehearsal schedules and events, and collaborated with other college organizations; increased digital outreach through social media and elevated the club's visibility across campus. Fostered a positive artistic environment while balancing performance goals and member engagement. Mentored cabinet members to strengthen leadership and ensure clear division of tasks and succession planning.

SKILLS

Advanced: SQL (CTEs, complex joins), Python (Pandas, NumPy), Tableau, PostgreSQL, Microsoft Office

Intermediate: ETL Pipelines, Snowflake, dbt, AWS (S3, EC2), Fivetran, MySQL, GitHub, HTML
